

Paso 1:

The screenshot shows the 'Capabilities' section of the WordPress admin. On the left, a sidebar lists various sections like Pages, Comments, Elementor, Templates, and Plugins. The 'Capabilities' section is selected. In the main area, the 'Admin' role is being edited. Under the 'Admin' tab, several checkboxes are listed: 'manage options' (checked), 'edit dashboard' (unchecked), 'export' (unchecked), 'import' (unchecked), 'update core' (unchecked), and 'read' (checked). Below these, there's a section for 'unfiltered html' which is also checked. A 'Save Changes' button is at the bottom.

Paso 2:

The screenshot shows the theme editor for a child theme named 'Hello Elementor'. The left sidebar includes 'Apariencia' under 'Temas'. The right panel shows the 'functions.php' file with the following code:

```

function ocultar_menu_ajustes_para_editores() {
    if (current_user_can('editor')) {
        remove_menu_page('options-general.php');
        remove_menu_page('jet-dashboard');
        remove_menu_page('elementor');
        remove_menu_page('googlesitekit-dashboard');
        remove_menu_page('duplicator-pro');
    }
    add_action('admin_menu', 'ocultar_menu_ajustes_para_editores', 999);
}

```

A yellow box highlights the entire function definition. The right sidebar shows the theme's structure, including 'Funciones del tema' (functions.php) and 'readme.txt'.

```

function ocultar_menu_ajustes_para_editores() {

if (current_user_can('editor')) {

remove_menu_page('options-general.php');

remove_menu_page('jet-dashboard');

remove_menu_page('elementor');

remove_menu_page('googlesitekit-dashboard');

remove_menu_page('duplicator-pro');
}

```

```

        remove_menu_page('maintenance');

        remove_menu_page('themes.php');

        remove_menu_page('pp-capabilities');

        remove_menu_page('jet-engine');

        remove_menu_page('jet-smart-filters');

        remove_menu_page('profile.php');

        remove_menu_page('tools.php');

        remove_menu_page('tm/menu/main.php');

        remove_menu_page('wpseo_workouts');

    }

}

add_action('admin_menu', 'ocultar_menu_ajustes_para_editores', 999);

```

Paso 3 :

Para quitar plugin de capacidades para editor?

The screenshot shows the WordPress admin dashboard with the 'Capacidades' (Capabilities) menu item selected in the sidebar. The main content area is titled 'Capacidades del plugin – PublishPress Capabilities'. It lists various capabilities for the 'Editor' role, such as 'manage capabilities dashboard', 'manage capabilities roles', 'manage capabilities', etc. Many of these items have a red 'X' next to them, indicating they are disabled. There is also a search bar labeled 'Filtrar por capacidad' (Filter by capability) and a 'Vaciar' (Empty) button.
